I. Introduction

Coalition for the Common Good was established in 2023 to foster cooperation and to combine the resources of its member institutions. Unbound by geography, the goals of Coalition for the Common Good are: to improve access to higher education; to empower students to meet their professional aspirations; and to develop and deliver targeted educational and professional development programs that meet the unique requirements of our communities through academic partnerships with institutions, businesses and employers.

II. Mission Statement

Coalition for the Common Good is a network of affiliated private, nonprofit colleges and universities that, through collaboration and integration, provide transformative education and lifelong learning. Together, we are dedicated to promoting the common good, including democracy, social justice, equity, inclusion, and engaged global citizenship.
